> **REPORT INCOMPLETE** — this review was assembled from a malformed or missing model output and must not be read as a complete analysis: stage 2 output did not parse into a report object
>
> **PARTIAL COVERAGE** — PARTIAL COVERAGE: the forensic sweep was stopped early by the spend cap, so the paper was NOT fully checked. Absence of a finding here is not evidence of absence. Re-run with a higher --budget-usd for full coverage.

I'll read the paper body before triaging.
Let me verify the key findings with spot-rechecks.
